Joyce Crowder
Minister of Music

Thank You First Baptist

Dear First Baptist:

I want to express my thanks to you regarding two matters this month:

First, I want to thank you for your recent care and concern leading up to and following my surgery in May. Your many expressions of love and kindness helped me walk through a new experience and the challenges of recovery from surgery. Thank you for your prayers, cards, visits, the prayer shawl, meals, gift cards, lawn mowing, gardening and words of encouragement. I am blessed to be part of this faith community and to have been on the receiving end of your gracious pastoral care.

Second, I want thank you, as a congregation, for providing me with a time of sabbatical leave during the months of June, July and August. Per our personnel policies I was eligible to apply for this time away. Because of the Lilly Foundation grant for Clergy & Congregational Renewal both I, and the congregation, have been blessed with financial resources to more fully benefit from the experience. Truly, our grant application was a collaborative effort, and I know you will support the FBC Sabbatical team in participation with the summer plans and activities that have been lined up. The Sabbatical brochure, published in last month's *Messenger* (and available on our website – www.fbccolumbus.org) will give you a weekly forecast of what is to come.

While you are “framing new pictures for ministry” together through the summer weeks; my family and I will be discovering and exploring our own new “frames” from which to view and enjoy life.

There is an accumulative weight that companions pastoral ministry by the very nature of this calling. One is never completely free from concern or the mental taxing of responsibility and obligation that is part of the pastoral life. The sabbatical leave is designed to help a pastor “step away from the demands of leadership for a brief period of rest and spiritual renewal.” I will confess that I am very much looking forward to this opportunity, and can do so knowing full well that we have put a plan in place that features very capable sabbatical preachers and pastoral care givers in my absence. I am grateful to all who will be providing leadership in any way.

To most fully live into the experience I will not be checking my church email or phone messages while on sabbatical. When home from travel during the summer weeks I will not be worshipping at FBC but visiting other congregations as part of the sabbatical experience. If you are interested in following some of our adventures, or reading my reflections along the way, I invite you to visit my blog at: www.danielcash.wordpress.com. I will post periodic updates as time allows.

I do hope you will be able to join us for worship on Sunday, June 3, to attend Paige Williams' Photo Skills workshop during 2nd Hour that day; and be part of the “Bon Voyage” send-off luncheon that follows. I covet your prayers for the summer weeks, our travel and time of refreshment. I will be holding you up in prayer as well.

With gratitude for our partnership in the gospel,
Pastor Dan

Photo Skills Workshop June 3 at 10:45 a.m.

This Sunday morning elective program in the FBC Chapel will focus on improving photo skills when taking pictures with camera phones or any digital camera. Topics to be discussed include composition, lighting, quality and editing. The workshop is free to all attendees and may be very helpful to those participating in the Photo Challenge. The workshop instructor is FBC's **Paige Williams**, a member of our congregation, a professional photographer and owner of P•K Photography.

"My goal for this workshop is to help people be more comfortable taking pictures with their phones while also helping them take better quality photos," explained Paige.

Adult Elective Opportunity – 2nd Hour June 10 & 17

"Baptist Beginnings in Great Britain & America: The Route of Our Roots and The Path of Our Principles

Part 1: Baptist in Great Britain from John Smyth (1609) to the Act of Toleration (1689)

Part 2: Baptists in America from Roger Williams (1639) to the Triennial Convention (1814)

Part 3: Baptists in Indiana from the first churches (1802) to the first convention (1833)

Two sessions led by Dr. Darrell James from Culbertson Baptist Church in New Albany (retired)

The Quilts of Lois Griffith—A Retrospective Saturday, June 23 ~ 9:00 a.m.—3:00 p.m.

Over 35 large and small quilts, created mostly by Lois Griffith, will be on display "with their stories" in Fellowship Hall. Special displays relating to Lois' quilting journey will be positioned about the exhibit as well.

The exhibit will also be accessible Sunday after church until noon. One of Lois' recent quilts will be auctioned in a Silent Auction with proceeds donated to the Missionary Aviation Fellowship.

What's New in the Library?

Healthy Living Tips

June is Men's Health Month

Why Men's Health Month?

You may ask, what's the necessity to celebrate men's health month? Well, the primary objective of having such a celebration is to create awareness about the health problems of men, which are generally preventable. This is also to encourage men to detect and treat possible diseases at the earliest. Upon knowing this, let's pass on the interesting facts about men's health.

Top Facts on Men's Health:

- Women are found to be 100% more likely than the men to visit their doctors for annual examinations and for preventive services.
- One in two men are being diagnosed with cancer when compared to one in three women.
- In the U.S., nearly 30,000 men are dying from prostate cancer every year.
- The number 1 threat to men is heart disease, which is caused due to higher blood pressure, obesity, as well as higher cholesterol.
- In the U.S., around thirteen million men are diagnosed with diabetes.
- Men are found to be more likely to be uninsured in comparison with their female counterparts.
- Men are found to be twenty times more likely to be colorblind than their female counterparts.
- Men are affected by hearing loss at the rate of two times as much as women.
- Men die on an average of five years earlier than women.

The common health threats to men and their prevention here:

Cardiovascular Disease: You can keep your cardiovascular disease at bay by getting your cholesterol levels checked at the age of 25 and every five years from there on. In simple terms, you need to start checking your cholesterol levels from the time you increased your physical activities and started eating lots of fruits and vegetables.

Lung Cancer: No, there is no screening test available for detecting lung cancer at this time. Therefore, the best way to prevent lung cancer from affecting you is to quit smoking as early as possible.

Prostate Cancer: This is the men-only disease and is found to be the most common form of cancer in men today. To prevent this disease from affecting you, it is recommended that you get your rectal examination every year. In addition, related blood tests are also important. This is the only way to make sure you are healthy. However, it is also suggested that you have regular doctor checkups and learn about the overall threat.

Depression and Suicide: Do you know men are more likely to hide their emotions and feelings of depression than women? This way, they are unlikely to get the help they require. Therefore, cases of suicide are higher in men. To prevent this, you need to attend to your symptoms of depression as early as possible. Remember, both men and women are found to be responding well to depression treatment, may it be the therapy, medication, or both.

Diabetes: This is the silent, as well as the slow killer. It would take years to develop and hence, men might have it before they actually feel something is wrong with them. To keep diabetes at bay, you need to do regular exercises and maintain a healthy and balanced diet.

HIV and AIDS: About 69% of new cases of HIV and AIDS are found to be occurring in men between the ages of 15 and 29. The best method to prevent this life-threatening disease from affecting you is to talk to your sexual partners and to practice safe sex.
