

Sing! Global Conference Instruction Guide

Hello! Welcome to the Getty's Sing! Global Conference! We're thrilled to have you attending this event through First Baptist Church Columbus. Below you will find information for how to access the content. This content is available to be viewed through the rest of the year, so don't feel like you need to constantly be viewing it. Taking bite-sized sections one at a time can really help you digest all that there is to know!

To Note - there is an app you can download that helps you access any additional resources you might be looking for. You can find the app in the app store by searching: "Sing! Global"

There is also a program book and songbook available for download that can help you engage with all of the singing. This can be downloaded once you're into the convention.

Let's begin!
